

2018 CWA NPDES NATIONAL TECHNICAL INSPECTOR WORKSHOP

DECEMBER 3 – 7, 2018
CHICAGO

Hosted by EPA's Office of Compliance and Region 5

This Workshop provides a highly technical forum to train Clean Water Act (CWA) National Pollutant Discharge Elimination System (NPDES) inspectors. The format includes technical classroom sessions, hands on equipment training, and a series of field exercises with experienced inspectors. This Workshop is open to inspectors at all experience levels and satisfies certain EPA Order 3500.1 refresher training requirements.

Classroom curriculum includes: hot topics for inspectors; inspection and enforcement policy implementation; inspector best practices; municipal, industrial and wet weather inspection programs; and laboratory audits. Hands on training includes sampling and monitoring equipment demonstration. Field exercises include a mix of municipal, industrial, and stormwater site inspections. **Watch for additional correspondence regarding registration information.**

Workshop Location

EPA Region 5
77 W. Jackson Blvd
